

## EMERGENCY PREPARATION AND RESPONSE

### PANDEMIC RISKS TO YOUR BUSINESS

Brosnan's® scalable protection services help business leaders mitigate risk for employees and assets during pandemic emergencies.

A pandemic is a rapidly spreading infectious disease that may pose a global threat. Pandemics can create social and economic chaos. They can severely upset business operations by disrupting the supply chain and causing high absenteeism. This may impede your ability to deliver products and services to your customers and protect your business assets.

**“There is a very real threat of a rapidly moving, highly lethal pandemic of a respiratory pathogen killing 50 to 80 million people.”**

- Global Preparedness Monitoring Board

September 19, 2019

The spread of coronavirus (COVID-19) is having a devastating impact on businesses and hourly workers whose hours, shifts, and operations are coming to a full stop.

At Brosnan we are in a unique position to see the impact of COVID 19 in real-time on our clients businesses and together with intel gathered from our law enforcement and governmental agencies determine security asset allocation and risk prevention protocols.

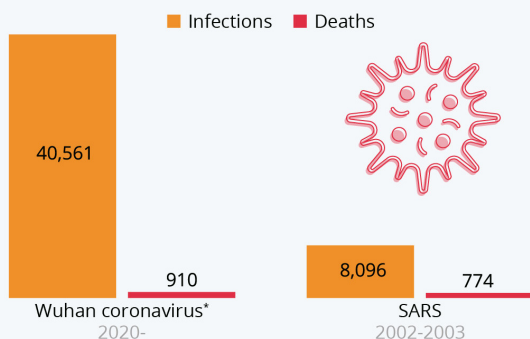

The COVID-19 crisis will come to an end. The Brosnan team remains dedicated to its clients in full force to insure continuity of services.

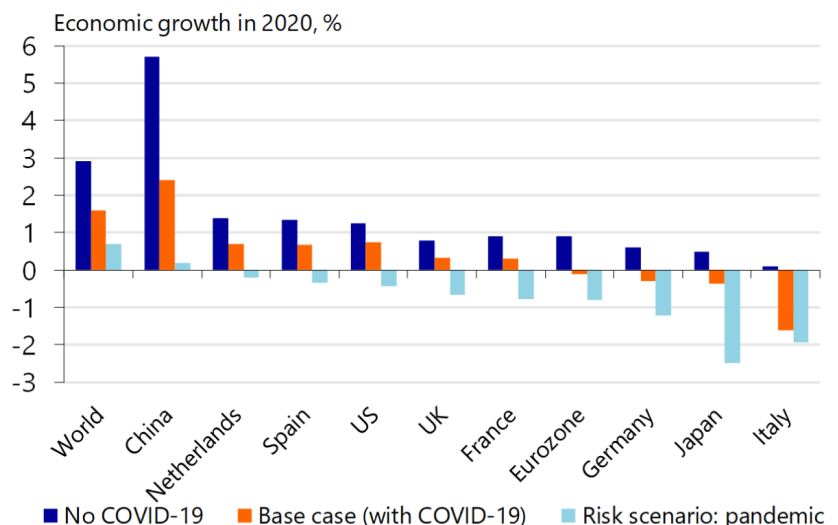

Pandemics have occurred throughout history and appear to be increasing in frequency, particularly because of the increasing emergence of viral disease from animals.

### Coronavirus Death Toll Overtakes SARS

Global infections and deaths related to SARS and the Wuhan coronavirus\*

# BROSNAN'S® EMERGENCY RESPONSE TEAM CAN WORK WITH YOU TO PREPARE FOR AND RESPOND TO ANY PANDEMIC-RELATED EMERGENCY.

PANDEMIC RISKS	BROSNAN® RESPONSE
The real pandemic danger is social breakdowns, miscommunication and emergency response overload and delays in responding to emergencies.	Brosnan® works with you to create an Emergency Response and Disaster Recovery plan that focuses on protection of your assets.
Brick and mortar locations may be targeted by looters and other criminals.	Brosnan® deploys armed and unarmed security officers to protect your physical assets during emergencies.
Evacuations and quarantines affect your employees and partners and poor planning can be a recipe for management breakdown and ultimate failure.	Brosnan® provides protection services for your employees and partners during emergencies because people are your most valuable resource.
Transportation and commerce are affected by crisis, which can impact your supply chain and make it difficult to continue servicing your customers.	Brosnan® provides escort services for the transportation of goods and supplies for emergency staging and emergency evacuations.
During a emergency, communication via cell towers, phone lines, and the Internet is frequently disabled by service providers to prioritize traffic.	Brosnan® has you covered with command posts and incident command posts that monitor real-time threats to ensure you always have the latest information from law enforcement and emergency agencies

## WHY BROSNAN® //

Mitigating risks from disasters requires a partner who can provide detailed risk assessments, rapid deployments of security personnel, and real-time intelligence. Brosnan® is one of the largest privately held providers of technology-driven security services and has provided emergency services during catastrophic weather events, social disturbances and health related crisis's.

From assessment to implementation, Brosnan® seamlessly integrates protective services with a proactive and tiered approach that identifies threats, devises answers and ensures operational continuity for your business. The 24/7 Brosnan® Command Center in New York provides situational awareness to over 5000 security professionals nationwide. This swift dissemination of actionable intelligence enables security officers to make smarter decisions and make those decisions faster.
